

A10: LaTeX and Powerpoint
Team, Due Feb 4, 2010

Produce a power-point presentation of your derivation of

- Δh , the vertical displacement of the steering head (for $d = 0$), **or**
- KE and PE, the kinetic and potential energies for the golf swing

using LaTeX to create the mathematics.

Some suggested resources might include:

TexPoint - <http://texpoint.necula.org/>

IguanaTex - <http://www.technion.ac.il/~zvikabh/software/iguanatex/>
